 First stop

Intro to LastPass

What is LastPass?

Est. in 2008

LastPass

Password manager for everyone, everywhere

Easily **create**, **secure**, and **autofill** credentials from any device

16M total users protected

Product offerings for both **personal** & **business**

About Growth & Lifecycle Marketing

 **Goal:** To **provide value** at all points of the customer lifecycle by creating the **best user experience** through touchpoints geared towards **driving user engagement & conversion**.

 **Method:** Rapid experimentation

 **Channels:** Email & in-product messaging

 **Partnerships:** Product, Web, UX, & more

We operate on several platforms

Challenges our team faces

***Limited
access to
dev
resources***

***The need
to quickly
test &
learn***

***Lack of
product
usage data***

***Limited to

How we currently use Pendo

Introduced **Pendo** in 2021

 **6** live applications
196 pages tagged
478 features tagged

 **80** active guides

 **6.85M** MAU

We use **Pendo guides** across the user lifecycle

- New user onboarding nurture
- Drive feature engagement
- Upgrade & upsell messaging
- Experimentation
- Product announcements
- Surveys
- Webinar invitations

 **Second stop**

Driving first value attainment with Pendo guides

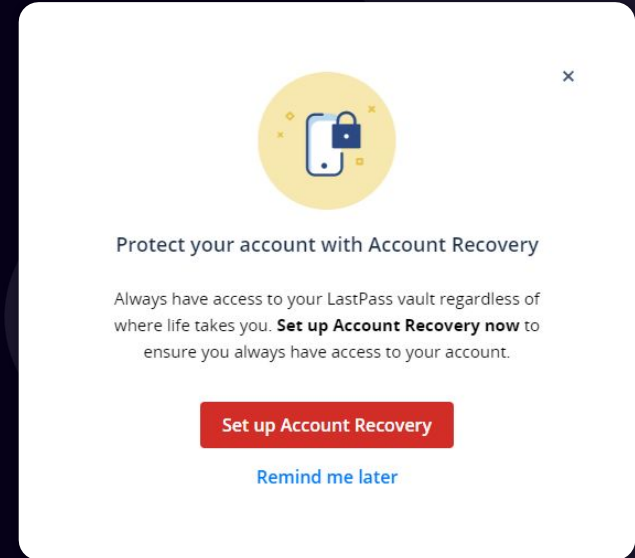

Onboarding our users with Pendo

Personalized journeys

Driving key "sticky" feature usage

Driving first value attainment (FVA)

Consumer
onboarding

What is first value attainment?

“aha”
moment

This just made my life better

For LastPass – **autofill** passwords

Those who reach FVA are **4X**
more likely to convert to paid

Our UX is not optimized to drive FVA

 **Problem:** Business trial signup flow not directing users to the right product area to attain FV (autofill) + no guidance on how to get there

-  **Solution:**
- Use Pendo to welcome and guide users
 - Drive actions that will lead to FVA
